

You Are Here

Tommy Walker

In the stillness of the morning
In the darkness of the night
In the tears, in the joy and laughter
You are here with me

There is no place You said I could go
That would take me far from You
Help me see, help me recognize
That You, You are here with me

Chorus

You are here, You are here with me
Oh what comfort, joy and peace
You are here, You are here with me
Give me faith and eyes to see

In these praises I'm now singing
When I'm praying with a friend
Even now in this breath I'm breathing
You are here with me

Oh what peace, oh what a confidence
To know Your mercies follow me
There's no pow'r that can separate us
You are here with me

Bridge

Hallelujah
You are here with me so I say
